## Licensing – Subscription model

The customer shall give the following details in the web form

- ✓ Hospital Name:
- ✓ Name of the primary user:
- ✓ Profession: Doctor / Administrator / Others ( specify if others)
- ✓ Mobile Number:                      Email ID:
- ✓ No of Clinics / Hospitals:
- ✓ No of users including Primary user:
- ✓ How you come to know about it: Web search / Customer / User / Agency / Others ( specify)
- ✓ If agency specify his Mobile Number

Allied

Allied shall generate a unique ID for the hospital. In the multitenant this hospital ID shall be the identifier of the Hospital (Hospital name can be same for different hospitals)  
Generate password code and sent to the mail ID along with the log in link. This unique ID will be the log in id of the primary user.  
The password code will be used in the first log in and will be changed after the first log in.  
This password will also enable the license.  
The license code will define the number of clinics and the number of users

The user will open the log in page use the log in ID and password to log in. This will enable the licenses he requested. After the first log in the user will change his password. We can give log in questions if the user forget the password or request password from Allied

The Primary user can create as many number of Clinics (locations) as possible as per his license .
